TEST YOUR COFFEE KNOWLEDGE

Not Your Average Joe:

This tower is named after Werner Heisenberg, the physicist behind the famous uncertainty principle, but there's nothing uncertain about the coffee here—it's consistently strong and energizing.

Coffee is a Fruit: Believe it or not, coffee beans are actually seeds found inside the cherries of the coffee plant. So technically, you're drinking fruit juice!

ESPRESSO IS NOT A BEAN: MANY PEOPLE THINK ESPRESSO IS A TYPE OF COFFEE BEAN, BUT IT'S ACTUALLY A BREWING METHOD THAT INVOLVES FORCING HOT WATER THROUGH FINELY-GROUND COFFEE UNDER PRESSURE.

GOAT DISCOVERY: LEGEND HAS IT THAT ETHIOPIAN SHEPHERDS FIRST DISCOVERED COFFEE WHEN THEY NOTICED THEIR GOATS BECOMING EXTRA ENERGETIC AFTER EATING COFFEE CHERRIES.

Second Most Traded Commodity: After oil, coffee is the most traded commodity in the world, with over 2.25 billion cups consumed daily!
